

Project factsheet: Global Framework for the Progressive Control of Transboundary Animal Diseases (GF-TADs) in Southeast Asia

Project information

- **Project symbol:** GCP/GLO/074/USA BABY 03
- **Implementation period:** 12/03/2020 – 29/07/2024
- **Contribution:** 1 400 000 USD
- **Donor:** Defense Threat Reduction Agency (DTRA), the United States Government

Focus areas

UNITED NATIONS Geospatial map (2022)
Map Disclaimer: The boundaries and names shown and the designations used on this/these map(s) do not imply the expression of any opinion whatsoever on the part of FAO concerning the legal status of any country, territory, city or area or of its authorities, or concerning the delimitation of its frontiers and boundaries. Dashed lines on maps represent approximate border lines for which there may not yet be full agreement.

Objectives

Reducing threats posed by African swine fever (ASF) in Southeast Asian countries through operationalization of the FAO/WOAH Global Framework for the Progressive Control of Transboundary Animal Diseases (GF-TADs) initiative.

- Enhancing the knowledge base on disease circulation, burdens and drivers in the region
- Strengthening capacity for detection, diagnosis, reporting, preparedness and response, awareness raising
- Developing tools and resources to support control programmes

Key activities

Risk reduction along the value chains

Emergency response

Policy

Capacity building
