Map Disclaimer: The boundaries and names shown and the designations used on this/these map(s) do not imply the expression of any opinion whatsoever on the part of FAO concerning the legal status of any country, territory, city or area or of its authorities, or concerning the delimitation of its frontiers and boundaries. Dashed lines on maps represent approximate border lines for which there may not yet be full agreement.

Objectives

Enhancing the understanding of risks of important zoonotic disease spillovers from wildlife to livestock and humans for improved policies and regional cooperation towards better pandemic prevention and preparedness.

- Identifying high-risk facilities for possible zoonotic viruses
- Supporting the adoption of policies to prevent wildlife-related zoonotic diseases at the national level
- Supporting adoption of regional biosafety standards and joint strategies within ASEAN

Disclaimer: This project is led by United Nations Office on Drugs and Crime (UNODC), with co-implementing partners FAO and the United Nations Environment Programme (UNEP). This factsheet has been produced with the assistance of the European Union. The contents are the sole responsibility of FAO and do not necessarily reflect the views of the European Union.
